

2022 Regenerative Grazing Mini-Grant and Scholarship Program Application

Agricultural educators, technical service providers, and advocates play a crucial role in building awareness of and supporting farmers integrating regenerative grazing practices. To that end - the Regenerative Ag Idea Network (REGAIN) is excited to kick off round two of Regenerative Grazing Mini-Grants. This program is designed to support educators and advocates in Illinois and Indiana in furthering their own professional development and organizational capacity around regenerative grazing instruction and builds off other grazing work in both states.

Funds are available for professional development scholarships (up to \$500) and organizational grants (up to \$1,000) for attending or hosting workshops, developing educational materials, and more! Selected applicants will be asked to submit a brief evaluative report (<1 page) within two weeks of completing the activity for which funds were requested. Funds must be spent by March 1, 2022.
